## ASTM A325 - 02 Standard Specification for Structural Bolts, Steel, Heat Treated, 120/105 ksi Minimum Tensile Strength

[View on Information Provider website](#)

### Abbreviation

ASTM A325 - 02

### Valid from

10/01/2002

---

### Information provider

American Society of Testing and Materials

### Author

American Society of Testing and Materials

### Information type

ASTM Standard

### Format

PDF

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

---

### Description

This specification covers two types of quenched and tempered steel structural bolts having a minimum tensile strength of 120 ksi for sizes 1.0 in. and less and 105 ksi for sizes over 1.0 to 1½ in., inclusive.

For assistance with locating previous versions, please contact the information provider.
