## ASTM D1894-11 Standard Test Method for Static and Kinetic Coefficients of Friction of Plastic Film and Sheeting

[View on Information Provider website](#)

### Abbreviation

ASTM D1894-11

### Valid from

01/09/2011

---

### Information provider

American Society of Testing and Materials

### Author

American Society for Testing and Materials

### Information type

ASTM Standard

### Format

PDF

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

---

### Description

This test method covers determination of the coefficients of starting and sliding friction of plastic film and sheeting when sliding over itself or other substances at specified test conditions. The procedure permits the use of a stationary sled with a moving plane, or a moving sled with a stationary plane. Both procedures yield the same coefficient of friction values for a given sample.
