ASTM D3568 - 98 (2002) Standard Test Methods for Rubber - Evaluation of EPDM (Ethylene Propylene Diene Terpolymers) Including Mixtures With Oil

[View on Information Provider website](#)

Abbreviation

ASTM D3568 - 98 (2002)

Valid from

10/12/2002

Information provider

American Society of Testing and Materials

Author

Description

These test methods specify the standard materials, test formulas, mixing procedures, and test methods for the evaluation and production control of ethylene propylene diene rubbers (EPDM).

Scope

These test methods specify the standard materials, test formulas, mixing procedures, and test methods for the evaluation and production control of ethylene propylene diene rubbers (EPDM).

The values stated in SI units are to be regarded as the standard. The values in parentheses are for information only.

This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.
