Description

This specification primarily covers greige fabrics woven from "E" electrical glass fibre yarns. It can also be applied to fabrics made of other glass fibre types as agreed upon between the purchaser and the seller.

It specifies the terminology, definitions, general requirements and physical requirements for greige glass fibre fabrics. This specification permits the application of organic materials to the glass fibre yarn during manufacture that helps facilitate weaving. When used as permitted in this specification, such materials will not interfere with the intended end use requirements.
