Description

This Australian Technical Specification (ATS) sets out requirements for stainless steel pipes and tubes in the size range DN 15 to DN 300 used in hot and cold water supply systems.

It is intended that these pipes and tubes will be assembled using fittings complying with AS/NZS 3688.

Scope

This Australian Technical Specification will be referenced in AS 5200.000.

Note: AS 5200.000 provides the level of WaterMark Certification required for this product to be used in plumbing systems in accordance with the Plumbing Code of Australia.

Appendix A sets out the means by which compliance with this Technical Specification shall be demonstrated by a manufacturer for the purpose of product certification
