AWS A5.2 - 1980 Specification For Iron and Steel Oxyfuel Gas Welding Rods

[View on Information Provider website](#)

Abbreviation

AWS A5.2 - 1980

Version

1980 Edition

Valid from

15/05/1980

Information provider

IHS Markit

Author

American Welding Society

Information type

Material specification

Format

PDF

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

This specification provides the requirements for classification of carbon and low alloy steel rods for oxyfuel gas welding. The classification requirements include the mechanical properties of the weld metal. Additional requirements are included for chemical composition of the rod, and for manufacture, sizes, lengths, and packaging.

For assistance with locating previous versions, please contact the information provider.
