BRANZ Limited

Information type

BUILD article

Format

PDF

---

### Description

This is a news article about B-RISK, a fire design and analysis software application.

Fire engineers can use it to predict fire and smoke spread in buildings and to determine how quickly the occupants must be able to leave so they stay safe. B-RISK is used by most New Zealand fire safety engineers for fire safety analysis.

For assistance with locating previous versions, please contact the information provider.
