Description

Acceptable Solution B1/AS1 provided a means of compliance with Building Code Clause B1 Structure. Clause B1 required buildings to withstand likely loads, including wind, earthquake, live and dead loads (people and building contents).

It made due allowance for the intended use of a building, the consequence of failure and other limitations. B1/AS1 contains Acceptable Solutions for:

- Masonry
- Timber
- Earth Buildings
- Stucco
- Drains
- Glazing

Scope

The citation covered only the scope stated or implicit in each Standard. Aspects outside the scope, when applied to a particular building, were not part of the Verification Method.
