Description

Acceptable Solution B1/AS1 provides a means of compliance with Building Code Clause B1 Structure. Clause B1 requires buildings to withstand likely loads, including wind, earthquake, live and dead loads (people and building contents).

It makes due allowance for the intended use of a building, the consequence of failure and other limitations. B1/AS1 contains Acceptable Solutions for:

- Masonry
- Timber
- Earth Buildings
- Stucco
- Drains
- Glazing

Scope

The citation covers only the scope stated or implicit in each Standard. Aspects outside the scope, when applied to a particular building, are not part of the Verification Method.
