Latest improvements to the Building Code have been published - BC Update 255

[View on Information Provider website](#)

Abbreviation

BC Update 255 - Latest improvements to the Building Code have been published

Valid from

28/11/2019

Information provider

Ministry of Business, Innovation and Employment

Information type

Guidelines

Format

Website

Description

Following a public consultation in August/September of this year, changes in the latest biannual Building Code update will:

- support safer and more resilient foundations for buildings on liquefaction-prone ground, and
- improve consenting efficiency for steel-framed housing by introducing a new steel frame Acceptable Solution.

[See the full list on the Building Performance website.](#)
