Below-floor work – Canterbury builder guide

[View on Information Provider website](#) [Download this resource \(PDF, 2.7MB\)](#)

{{ linkText }}

Valid from
01/04/2013

Information provider
Ministry of Business, Innovation and Employment

Information type
Section 175 guidance

Format
Website, PDF

Description

This guide sets the scene for building in Canterbury’s green zone and gives an overview of the ‘nuts and bolts’ of below-floor work. Both this booklet and the companion Above-floor work booklet provide and introduction to the more detailed Repairing and rebuilding houses affected by the Canterbury earthquakes guidance.

The Below-floor work guide covers the repair and replacement of foundations for residential properties that are mainly:

- one or two storey timber-framed dwellings
- located on sites on the flat in Canterbury’s green zone.

It also covers garages and outbuildings, and gives tips for installing new services.

For assistance with locating previous versions, please contact the information provider.
