# **BRANZ House Insulation Guide, 5th Edition 2014**

View on Information Provider website {{ linkText }}

Abbreviation BRANZ House Insulation Guide 2014 Version 5th Edition Valid from 01/01/2014

Information provider BRANZ Limited Author BRANZ Ltd Information type Guidelines Format PDF

Cited By

This resource is cited by 3 documents (show Citations)

### Description

This guide assesses the thermal performance that can be expected for given levels of insulation and common construction options.

All text and graphs have been reviewed and updated to take account of the current levels of achievable insulation for walls, roofs and floors.

The guide retains the easy-to-read graphs and tables to determine the as-built construction R-values for given levels of insulation and common construction options.

This 5th edition includes new information and modelling for:

- · windows and recessed light fittings
- steel-framed walls with different cladding types
- suspended concrete floors, concrete slab-on-ground floors, basement walls and waffle pods.

For assistance with locating previous versions, please contact the information provider.

#### Notes/comments

NZS 4218:2009 cites BRANZ House Insulation Guide, 3rd Edititon 2007, which is not currently available online. We have provided you with a link to this more recent version for your information only.
