BS 1748-8:1960 Methods for the analysis of copper alloys. Method for the determination of phosphorus in copper alloys (photometric method)

[View on Information Provider website](#)

Abbreviation

BS 1748-8:1960

Valid from

20/07/1960

Information provider

Standards New Zealand

Author

British Standards Institution

Information type

British Standard

Format

PDF

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

Reagents, sampling, test procedure for alloys with phosphorus content up to 1.20 per cent. Applicable to all types of copper alloys provided a suitable compensating solution is used when elements are present which would otherwise interfere in the optical density determination.
