BS 1780-2:2002 Aluminium and aluminium alloys. Designation of unalloyed and alloyed aluminium ingots for remelting, master alloys and castings. Chemical symbol based designation system

[View on Information Provider website](#)

Abbreviation

BS 1780-2:2002

Valid from

01/01/2002

Information provider

Standards New Zealand

Author

British Standards Institution

Information type

British Standard

Format

PDF

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

This specification provides a chemical symbol based designation system for unalloyed and alloyed aluminium ingots for remelting, master alloys and castings.
