## BS 21:1985 Specification for pipe threads for tubes and fittings where pressure-tight joints are made on the threads (metric dimensions)

[View on Information Provider website](#)

### Abbreviation

BS 21:1985

### Valid from

30/09/1985

---

### Information provider

Standards New Zealand

### Author

British Standards Institution

### Information type

British Standard

### Format

PDF

---

### Cited By

[This resource is cited by 6 documents \(show Citations\)](#)

---

### Description

Range of threads from 1/16 to 6, together with thread forms, dimensions and tolerances, designations; includes appendices for recommended gauging systems and methods of use of gauges. Requirements for jointing threads for taper external threads, for assembly with either tapes or parallel internal threads and for longscREW threads for longscREWS specified in BS 1387.
