BS 240:1986 Method for Brinell hardness test and for verification of Brinell hardness testing machines

[View on Information Provider website](#)

Abbreviation

BS 240:1986

Valid from

31/12/1986

Information provider

British Standards Institution

Author

British Standards Institution

Information type

British Standard

Format

PDF

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

This standard provides a method for the Brinell hardness test of metals and for verification of Brinell hardness testing machines. For metals with a hardness up to 600 HB at room temperature. Direct and indirect verification of the accuracy of the testing machine.

For assistance with locating previous versions, please contact the information provider.
