BS 3412:1976 Specification. Polyethylene materials for moulding and extrusion

[View on Information Provider website](#)

Abbreviation
BS 3412:1976
Valid from
31/03/1976

Information provider
British Standards Institution
Author
British Standards Institution
Information type
British Standard
Format
PDF

Description

This standard provides a chemical composition specification for polyethylene materials for moulding and extrusion. It includes requirements, methods of test and a classification based on ISO 1872. Materials classified according to polymer type, density, major end use, melt flow index and modifications
