BS 4999-40:1972 Specification for general requirements for rotating electrical machines - Part 40: Characteristics of synchronous generators

[View on Information Provider website](#)

Abbreviation

BS 4999-40:1972

Valid from

23/05/1972

Information provider

British Standards Institution

Author

British Standards Institution

Information type

British Standard

Format

PDF

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

This Standard gives specifications for general requirements for rotating electrical machines. This part covers characteristics of synchronous generators. Parallel operation of a.c. generators, voltage regulation of constant voltage a.c. generators and irregularities of voltage waveform.
