## BS 5950-3.1:1990 Structural use of steelwork in building. Design in composite construction. Code of practice for design of simple and continuous composite beams

[View on Information Provider website](#)

### Abbreviation

BS 5950-3.1:1990

### Amendment

AMD 16721, AMD 16721 is a Corrigendum. Amendment, March 2010. Amends and replaces BS 5950-3.1:1990.

### Valid from

31/07/1990

### Description

BS 5950-3.1:1990 gives recommendations for the design of simply supported and continuous composite beams, comprising hot rolled steel sections, plate girders and hollow sections acting compositely with reinforced concrete slab, or with a composite slab complying with BS 5950-4.

This Section of BS 5950 does not cover the design of composite columns or composite frames, for which reference should be made to Section 3.2.2).
