BS 6068-2.17:1986 Water quality. Physical, chemical and biochemical methods - Method 2.17: Methods for determination of total cyanide

[View on Information Provider website](#)

Abbreviation

BS 6068-2.17:1986

Valid from

28/02/1986

Information provider

British Standards Institution

Author

British Standards Institution

Information type

British Standard

Format

PDF

Cited By

[This resource is cited by 2 documents \(show Citations\)](#)

Description

Three methods for concentrations of up to 100 mg/l in water: a photometric method with pyridine/barbituric acid, a titrimetric method using the Tyndall effect and a titrimetric method using an indicator.
