Description

This part of BS 6920 specifies a screening procedure (simple cytotoxicity test) using a mammalian cell line and a leachate from a product. The results of this procedure will assist in the toxicological assessment of the product for use in contact with water intended for human consumption.

Scope

The procedure given in this part of BS 6920 is suitable for all non-metallic materials that may be used in contact with water intended for human consumption.

For assistance with locating previous versions, please contact the information provider.
