BS EN 10002-5:1992 Tensile testing of metallic materials. Method of test at elevated temperatures

[View on Information Provider website](#)

Abbreviation

BS EN 10002-5:1992

Valid from

01/04/1992

Information provider

British Standards Institution

Author

British Standards Institution,
European Standardization Organizations

Information type

British Standard

Format

PDF

Cited By

[This resource is cited by 2 documents \(show Citations\)](#)

Description

This standard describes the method for tensile testing of metallic materials and defines the mechanical properties which can be determined thereby at elevated temperatures.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

BS EN 10002:1992 is the British Standards version of the European Standard and is referenced as the English language version applicable to this International Standard.
