## BS EN 10088-2:2005 Stainless steels. Technical delivery conditions for sheet/plate and strip of corrosion resisting steels for general purposes

[View on Information Provider website](#)

### Abbreviation

BS EN 10088-2:2005

### Valid from

30/06/2005

---

### Information provider

Standards New Zealand

### Author

British Standards Institution, European Standardization Organisations

### Information type

British Standard

### Format

PDF

---

### Cited By

### Description

This European Standard, a part of the BS EN 10088 series, specifies the technical delivery conditions for hot or cold rolled sheet/plate and strip of standard grades and special grades of corrosion resisting stainless steels for general purposes.

General purposes include the use of stainless steels in contact with foodstuffs.

The general technical delivery conditions specified in BS EN 10021 apply in addition to the specifications of this standard, unless otherwise specified.

This standard does not apply to components manufactured by further processing of the product forms with quality characteristics altered as a result of such further processing.

For assistance with locating previous versions, please contact the information provider.

### Notes/comments

BS EN 10088-2:2005 is the British Standards version of the European Standard and is referenced as the English language version applicable to this International Standard.
