Description

BS EN 10204:2004 is the British version of the European standard for inspection documents that authenticate materials used in metallic and non-metallic products.

There is increasing pressure for manufacturers to prove that products meet certain chemical and mechanical properties.

The documents detailed in BS EN 10204:2004 are a legal and regulatory requirement that must be provided to those purchasing products as proof of quality and product specification.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

BS EN 10204:2004 is the British version of the European standard EN 10204:2004.
