Description

This European standard specifies the technical delivery conditions for seamless tubes, of circular cross section, made from stainless steels, for mechanical and general engineering purposes.

BS EN 10297-2:2005 is British Standards Institution version of EN 10297-2:2005 and is identical.

Scope

This European Standard specifies the technical delivery conditions for seamless tubes, of circular cross section, made from stainless steels, for mechanical and general engineering purposes.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

BS EN 10297-2:2005 is British Standards Institution version of EN 10297-2:2005 and is identical.
