BS EN ISO 3677:1995 Filler Metal For Soft Soldering, Brazing And Braze Welding - Designation

[View on Information Provider website](#)

Abbreviation

BS EN ISO 3677:1995

Valid from

15/07/1995

Information provider

Standards New Zealand

Author

European Standardization Organisations, British Standards Institution, International Organisation for Standardization

Information type

ISO Standard

Format

PDF

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

This standard provides a specification for filler metal for soft soldering, brazing and braze welding. Specifies designations on the basis of filler material chemical composition. For brazing and braze welding materials only, the designation includes their solidus/liquidus temperatures. Deals only with those filler metals which do not incorporate flux.

For assistance with locating previous versions, please contact the information provider.
