**Description**

Plascourse DPC is a 0.5mm thick single layer black Polyethylene, embossed on both faces to produce a small diamond pattern.

**Scope**

Used to avoid moisture by providing a complete and permanent moisture barrier through the walls and brickwork. It provides protection against water damage and is used around brick vents, timber framing, windows and door flashings.

Masonry veneer must be constructed in accordance with NZBC Acceptable Solution E2/AS2 and

NZS 4229:2013.

May be used as a concealed flashing for jambs and sills of aluminium window and door joinery in masonry veneers walls constructed in accordance with NZBC Acceptable Solution E2/AS1.

Plascourse MUST NOT be used in applications where it is exposed to direct sunlight.
