Information type
Product Certificate (CodeMark)
Format
PDF

Description

LUMBERLOK Timber Connectors are a range of metal plate or wire connectors manufactured from pre-galvanised steel (Z275) coil or wire. A selection of LUMBERLOK Timber Connectors are also available in stainless steel (Grade 304-2B).

This certificate covers the following LUMBERLOK Timber Connectors.

LUMBERLOK Timber Connectors are designed and manufactured for use in connecting timber to timber, timber to concrete, timber to steel, and to provide structural support to timber construction.

Scope

LUMBERLOK Timber Connectors should only be used for the purpose for which each of them is designed and manufactured, and in accordance with the technical information supplied.

In particular, the number and size of the nails and screw fixings specified by the manufacturer (Characteristic Loadings Data – May 2018) must be followed.

Selection of connector and fastener material, and installation must be in accordance with the manufacturer’s instructions “Structural fixings on-site guide (Jan 2018)”
