CMA-CM40129

Valid from

23/01/2015

Information provider

Ministry of Business, Innovation and Employment

Author

CertMark International Pty Ltd T/A CertMark New Zealand

Information type

Product Certificate (CodeMark)

Format

PDF

Description

Cedarscreen Board & Batten Weatherboards are an external vertically fixed wall cladding system consisting of dressed or bandsawn weatherboards and cover battens fixed directly to the wall frame and finished with a factory applied wood oil.

Scope

The cladding systems are designed both as direct fix and cavity fixed systems suitable for use in residential and light commercial buildings.

The scope of use conforms to Acceptable Solution E2/AS1 Paragraph 1.1.

The cladding system has a risk score of 0-12 in line with Tables 1, 2 & 3 of Acceptable Solution

E2/AS1.

Timber framing must comply with NZS 3604:2011- Timber-framed buildings.

Aluminium windows and door joinery must comply with NZS 4211:2008- Specification for performance of windows.
