Constructing cavities for wall claddings

[View on Information Provider website](#) [Download this resource \(PDF, 2.3MB\)](#)

Valid from

01/06/2006

Information provider

Ministry of Business, Innovation and Employment

Information type

Section 175 guidance

Format

Website, PDF

Description

A practical and easy-to-follow guide that explains how to construct drained and vented cavities for timber-framed buildings to ensure they are well built and healthy. It is targeted for people involved in design, construction and weathertightness compliance.

For assistance with locating previous versions, please contact the information provider.
