## CP 102:1973 Code of practice for protection of buildings against water from the ground

[View on Information Provider website](#)

### Abbreviation

CP 102:1973

### Valid from

20/10/1973

---

### Information provider

Standards New Zealand

### Author

British Standards Institution

### Information type

Code of Practice

### Format

PDF, Hard copy

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

---

### Description

This Standard gives methods of preventing entry of ground and surface water into the building from surrounding areas. Section 2 describes methods of prevention at or below ground floor level, section 3 deals with methods of providing damp-proofing of walls and floors at ground level by use of d.p.c. materials to BS 743.

For assistance with locating previous versions, please contact the information provider.
