## CP 3:Chapter V-2:1972 Code of basic data for the design of buildings. Loading. Wind loads

[View on Information Provider website](#)

### Abbreviation

CP 3 Chapter V-2:1972

### Amendment

AMD 4952, AMD 5152, AMD 5343, AMD 6028, AMD 7908

### Valid from

15/09/1972

---

### Information provider

British Standards Institution

### Author

British Standards Institution

### Information type

British Standard

### Format

PDF

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

---

### Description

This standard provides recommendations on the wind loads to be assumed in the design of buildings, structures, and components. It includes sections dealing with unclad structures and appendices on ice formations and wind forces on circular sections.

For assistance with locating previous versions, please contact the information provider.
