DD ENV 1991-2-2:1996 Eurocode 1: Basis of design and actions on structures. Part 2.2: Actions on structures exposed to fire

[View on Information Provider website](#)

Abbreviation

DD ENV 1991-2-2:1996

Valid from

15/09/1996

Information provider

Standards New Zealand

Author

European Standardization Organisations

Information type

European Standard

Format

PDF

Description

The 'equivalent fire severity' method described in Eurocode 1 Actions on structures, Part 2-2 allows the equivalent time of exposure to the standard test for fire resistance to be estimated based on the compartment properties, FLED and available ventilation given complete burnout of the firecell with no intervention.
