## EN 1173:1995 Copper And Copper Alloys - Material Condition or Temper Designation (BS EN 1173:1996)

[View on Information Provider website](#)

### Abbreviation

EN 1173:1995, BS EN 1173:1996

### Valid from

01/12/1995

---

### Information provider

British Standards Institution

### Author

European Standardization Organisations  
British Standards Institution

### Information type

European Standard

### Format

PDF

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

---

### Description

This European Standard establishes a system for designation of material conditions or tempers to be used for the identification of mandatory property requirements. These designations are applicable to wrought or cast products of copper and copper alloys, except ingots.

Establishes a system for designation of material conditions or tempers to be used for the identification of mandatory property requirements.

**Note:** EN 1173:1995 was adopted as a British Standard BS EN 1173:1996.

For assistance with locating previous versions, please contact the information provider.

### Notes/comments

**Note:** EN 1173:1995 was adopted as a British Standard on 15 June 1996 and renamed BS EN 1173:1996 - links to both have been added for information.
