Extra raking window head detail - Build 163(2017)

[Download this resource \(PDF\)](#)

Abbreviation

Extra raking window head detail

Valid from

01/12/2017

Information provider

BRANZ Limited

Information type

BUILD article

Format

PDF

Description

Raking window head details can be a little tricky to design. This design solution can be used when a raked window head is directly under a soffit.

In BUILD 158, Soffit detail at gable verge described detailing requirements to prevent wind-driven rain from penetrating the junction between the soffit and the wall cladding at a gable verge.

Raking window head detail in Build 162 outlined the design and installation of a raked window incorporating a window head flashing under a gable soffit.

For assistance with locating previous versions, please contact the information provider.
