**Description**

Verification Method F1/VM1 provides a means of compliance with Building Code Clause F1 Hazardous Agents on Site.

Building Code Clause F1 is about identifying and neutralising any hazardous agents or other

contamination of the building site. It safeguards people from injury or illness caused by hazardous agents or contaminants on a site. It sets out assessment and performance requirements that account for the intended use of the building, the nature, potency and toxicity of hazards and contaminants, and any protection afforded by the building envelope and building systems.

For assistance with locating previous versions, please contact the information provider.
