Information type

Acceptable Solution

Format

PDF

---

### Description

Acceptable Solution F5/AS1 provides a means of compliance with Building Code Clause F5 Construction and Demolition Hazards. Building Code Clause F5 provides for the protection of people and other property during construction and demolition.

It ensures construction and demolition avoids the likelihood of objects falling onto people (and property) on or off site, and other hazards. For example, it prevents the unauthorised entry of children to hazards on site and requires barriers to restrict public access and provide safe routes.

For assistance with locating previous versions, please contact the information provider.
