## FED-STD 191A-5872:1978 Test Method 5872 Temperature, High; Effect on cloth blocking

[View on Information Provider website](#)

### Abbreviation

FED-STD 191A-5872:1978

### Valid from

20/07/1978

---

### Information provider

TechStreet

### Author

Federal Specifications and Standards

### Information type

Standard

### Format

PDF, Hard copy

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

---

### Description

This standard describes the general physical, chemical and biological methods for testing textile fibers, yarn, thread, rope, other cordage, cloth and fabricated textile products for conformance with the requirements of Federal and Military Specifications.

For assistance with locating previous versions, please contact the information provider.

### Notes/comments

**Note:** Users downloading from the Everspec website will need to scroll through the PDF to find Test Method 5872 as FED-STD 191A contains all the relevant Tests in this 191A Standard.
