This resource cites 14 documents (show Citations)

Description

Acceptable Solution G12/AS2 provides a means of compliance with Building Code Clause G12 Water Supplies for solar water heaters. G12 requires the safe supply, storage, reticulation and delivery of hot and cold water.

It requires buildings provided with water outlets, sanitary fixtures or sanitary appliances to have safe and adequate water supplies (including where hot water is necessary). It sets out requirements to avoid scalding, injury, leaks, contamination, illness and the prevention of legionella growth.

Scope

This Acceptable Solution applies to solar water heaters installed in or on buildings.

For assistance with locating previous versions, please contact the information provider.
