### Description

Verification Method G13/VM4 provides a means of compliance with Building Code Clause G13 Foul Water for on-site disposal. Code clause G13 requires the safe disposal of foul water to prevent illness and the loss of amenity due to odour and accumulated matter.

### Scope

This document describes the design methods for systems used for the collection, storage, treatment and disposal of foul water. A design method and construction details given in sections 5.1 to 5.5 and 6.1 to 6.2 of AS/NZS 1547: 2012 (and the appendices referred to in these sections), for the treatment of domestic foul water for flow rates up to a maximum 14,000 litres/week from a population equivalent of up to 10 persons, may be verified as satisfying the performance criteria of G13 Foul Water.
