### Description

Acceptable Solution G5/AS1 provides a means of compliance with Building Code Clause G5 Interior Environment.

Building Code Clause G5 is about providing habitable spaces with sufficient space for activity, accessible facilities and controlled internal temperature.

It requires there to be adequate and accessible habitable space for activities (furniture and sanitary or mobility aids) according to the buildings intended use, and for certain buildings to be provided with listening systems and controlled internal temperature.

### Scope

Clause G5 has particular applications for early childhood centres, old peoples homes and communal non-residential places of assembly.
