Alibuild A2 Plus

[View on Information Provider website](#) [Download this resource \(PDF, 229KB\)](#)

Abbreviation

GM-CM30098-RevA

Version

RevA

Valid from

01/04/2019

Information provider

Ministry of Business, Innovation and Employment

Information type

Product Certificate (CodeMark)

Format

PDF

Description

Alibuild A2 Plus is a 4mm thick aluminium composite material (ACM) with PVDF or NANO PVDF paint finish and mineral A2 core.

The 0.5mm thick aluminium sheets are made of 3000 or 5000 series Aluminium alloy. The aluminium sheets are glued to the A2 core with a layer EVA glue on each side of the core. The layer of glue is 30 micron thick or less. Alibuild A2 plus is manufactured and supplied by Feiteng Aluminium Composite Panel.

Scope

Alibuild A2 Plus panels are intended for use as part of an external wall cladding or facade system. The product is only the material used for one of the elements of the external cladding system.
