## Alibuild FR Plus

[View on Information Provider website](#) [Download this resource \(PDF, 229KB\)](#)

### Abbreviation

GM-CM30099-RevB

### Version

RevB - 1 April 2019

### Valid from

20/02/2019

---

### Information provider

Ministry of Business, Innovation and Employment

### Information type

Product Certificate (CodeMark)

### Format

PDF

---

### Description

Alibuild FR Plus is a 4mm thick aluminium composite material (ACM) with PVDF or NANO PVDF paint finish and mineral FR core.

The 0.5mm thick aluminium sheets are made of 3000 or 5000 series Aluminium alloy. The aluminium sheets are glued to the FR core with a layer EVA-PE glue on each side of the core. The layer of glue is 50 micron thick or less and contains up to 40% PE Mass/Mass. Alibuild FR Plus is manufactured and supplied by Feiteng Aluminium Composite Panel.

### Scope

Alibuild FR Plus panels are intended for use as part of an external wall cladding or facade system. The product is only the material used for one of the elements of the external cladding system.
