## **Harnessing rainwater and greywater - Fact sheet 8 (FS8) - Microbes in residential and commercial greywater in New Zealand**

[View on Information Provider website](#) [Download this resource \(PDF, 542KB\)](#)

### Abbreviation

Harnessing rainwater and greywater - Fact sheet 8 (FS8)

### Valid from

01/05/2020

---

### Information provider

BRANZ Limited

### Information type

Fact sheet

### Format

PDF

---

### Description

Greywater reuse systems could reduce network demand for water during droughts and improve the resilience of properties during natural disasters.

The biggest barrier to greywater reuse in New Zealand is concern about water quality and the risk to human health from waterborne disease. BRANZ and other research organisations studied bacteria levels in greywater from households and commercial buildings.
