HB 72-2013 Design vehicles and turning path templates

[View on Information Provider website](#)

Abbreviation
HB 72-2013
Version
AP-G34-13
Valid from
16/04/2013

Information provider
Austroads
Author
Austroads
Information type
Handbook
Format
PDF, HTML

Cited By
[This resource is cited by 1 document \(show Citations\)](#)

Description

Provides guidance for designers of traffic facilities such as road intersections, channelizations and traffic circulation paths in off-street facilities, in the form of a series of turning path (swept path) templates for a range of design vehicles from cars and single unit trucks and buses of varying length, to articulated and multiple-unit vehicles, such as "B-doubles" and road trains. For each vehicle type a representative range of turning radii and angles of turn are given. The templates can be copied onto a transparent medium and used to check vehicular paths on traffic facility layout drawings. This is a joint publication with Austroads.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

AS 2890.2-2002 cites HB 72, pub No AP-34/95, which is not currently available online. We have provided you with a link to this more recent version for your information only.
