HERA Report R4-133 (2011) - New Zealand steelwork corrosion and coatings guide

[View on Information Provider website](#) [View on Information Provider website](#)

Abbreviation

HERA Report R4-133 (2011)

Valid from

01/02/2011

Information provider

NZ Stainless Steel Development Association

Author

Charles Clifton and Raed Zaki

Information type

Guidelines

Format

Hard copy

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

The overall objective of this Coatings Guide is to provide the necessary guidance to allow an appropriate and cost-effective coatings system for structural steelwork to be selected and then specified in a generic manner.

It is written to be used in conjunction with the standard AS/NZS 2312:2002, "Guide to the protection of structural steel against atmospheric corrosion by the use of protective coatings".

For assistance with locating previous versions, please contact the information provider.
