### Description

This document gives information about the supply of safe drinking water to households that are not connected to town water supplies. It includes information on water sources, storage and treatment.

The Health (Drinking Water) Amendment Act 2007 applies to all public water supplies serving more than 25 people, plus small, neighbourhood, rural agricultural and tankered water supplies. It does not apply to households that supply their own water (self suppliers).

For assistance with locating previous versions, please contact the information provider.
