## IEC 60245-1:1994 Rubber insulated cables - Rated voltages up to and including 450/750 V - Part 1: General requirements

[View on Information Provider website](#)

### Abbreviation

IEC 60245-1:1994

### Valid from

09/05/1994

---

### Information provider

International Electrotechnical Commission

### Author

International Electrotechnical Commission

### Information type

IEC Standard

### Format

PDF

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

---

### Description

Gives definitions. Specifies marking, core identification and general requirements for the construction of cables. Appendices describe code designation and calculation method for determination of the thickness of sheath of cable types IEC 53, 57 and 66 of Publication 60245-4.

For assistance with locating previous versions, please contact the information provider.
