Description

This guide provides a starting point for developers, builders and project managers who are interested in getting involved with medium-density housing (MDH).

It sets out some of the issues you will need to consider when planning an MDH project, identifies the key specialists you'll need to work with to ensure compliance with the Building Code, and provides several case studies.

Scope

This guide includes the following sections:

- Getting started
 - The basics
 - The higher-density eight (HD8)
 - Specialists role for medium-density housing projects
- Case studies:
 - Case study one: 1–2-storey attached houses
 - Case study two: 2–4-storey attached houses
 - Case study three: 3–6-storey apartments
