ISO 10468:2003 Glass-reinforced thermosetting plastics (GRP) pipes — Determination of the long-term specific ring creep stiffness under wet conditions and calculation of the wet creep factor

View on Information Provider website {{ linkText }}

Abbreviation ISO 10468:2003 Valid from 21/11/2003

Information provider Standards New Zealand Author International Organization for Standardization Information type ISO Standard Format PDF

Cited By <u>This resource is cited by 1 document (show Citations)</u>

Description

ISO 10468:2003 specifies a method for determining both the long-term specific ring creep stiffness and the wet creep factor for glass-reinforced thermosetting plastics (GRP) pipes
